Level Income

Users can earn a percentage of income from their downline based on their referrals within the platform.

| Level | Income % |
|-------------------|----------|
| 1st Level | 6 % |
| 2nd Level | 3 % |
| 3rd Level | 2 % |
| 4th – 9th Level | 1 % |
| 10th – 15th Level | 0.50 % |

Level Unlock Conditions

- **Unlock 2 levels** : Requires 1 direct referral
- **Unlock 4 levels** : Requires 2 direct referrals
- **Unlock 6 levels** : Requires 3 direct referrals
- **Unlock 8 levels** : Requires 4 direct referrals
- **Unlock 10 levels** : Requires 5 direct referrals

Matrix Plan (2x2)

The Matrix Plan (2x2) operates on a structured hierarchy where each participant can have up to two direct referrals, forming a 2x2 matrix structure. This matrix expands further as new members join, they are placed within the 2x2 matrix (total of six members (2+4) in each matrix cycle).

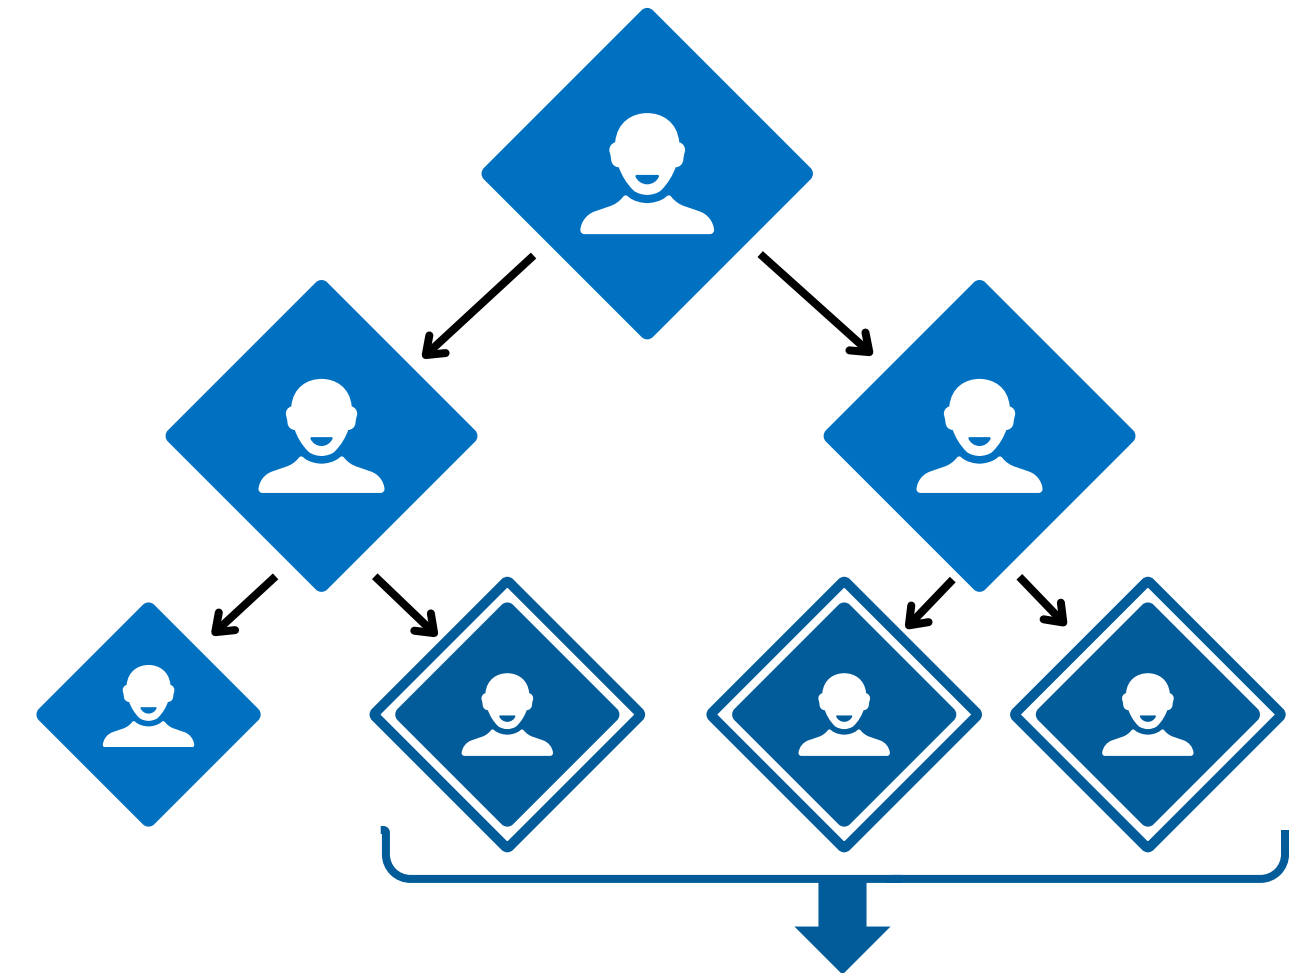

Income Distribution in the 2x2 Matrix

01.

- **50% of the income** generated is allocated to the **immediate upline traders at L1 and L0 levels.**

02.

- **The remaining 50%** of the earnings from **the last three IDs** in the matrix is used as a **top-up** amount, reinvested into the **same 2x2 matrix structure.**

**Income from last 3 IDs
will be Re-invested**

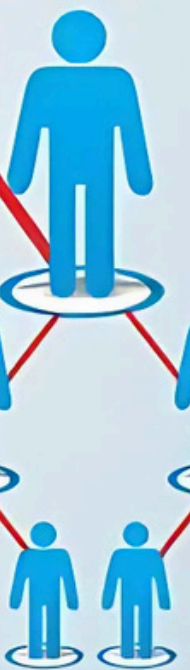

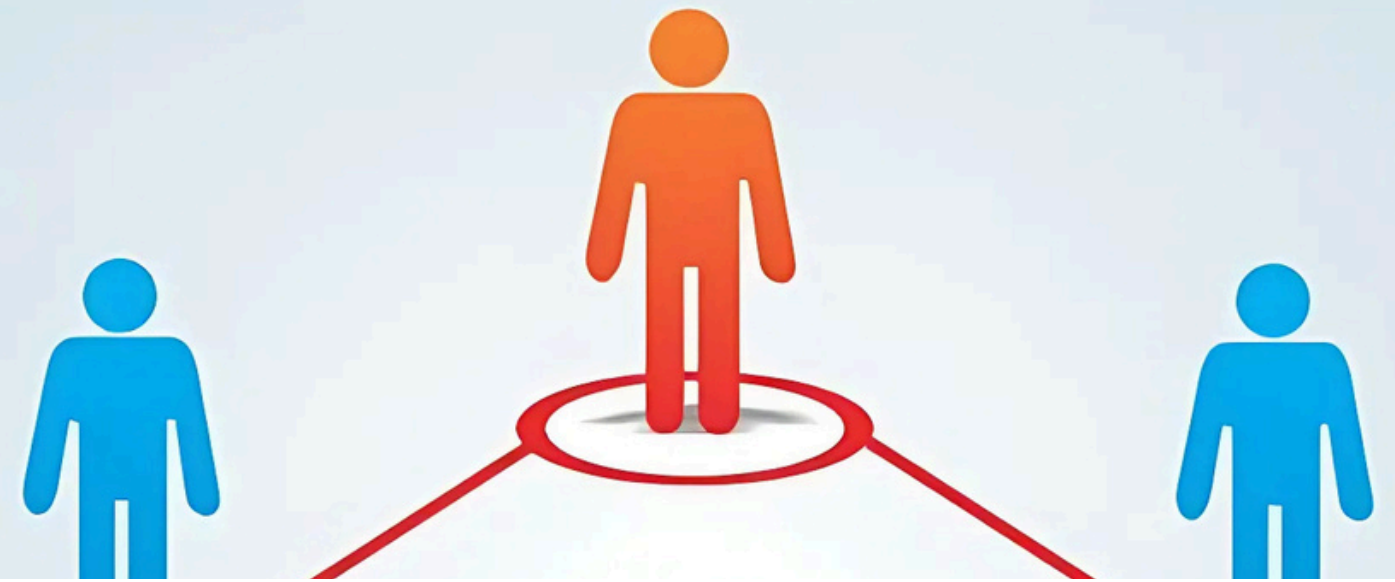

Matrix Plan (2x2)

- Income Reinvestment

Since each reinvestment is based on the earnings of the last three IDs, the reinvested amount varies each time. This reinvestment process continues until it reaches 21 levels following 2x2 matrix structure [forming a total of six members (2+4) in each matrix cycle.]

Hyper Binary Income

Hyper Binary Income is a network-based earning mechanism that rewards traders based on the business volume generated from their two legs. The traders will receive 40% (20\$) and to qualify for earnings, traders must maintain a 1:1 business ratio.

Rewards & Awards

Users earn rewards based on matching pairs and their MT5 business volume.
